## Barbera d'Asti SOLITER

"As the dream and the waking mixes together, as the caress of a warm sunlight, that's how Sun and Earth meet"

### VARIETY ORIGIN:

Hill countryside surrounding Nizza Monferrato. South oriented vineyard, calcareous loam rocks. No cold valley draughts.

### VISION:

is the main principle of the soil, the expression of a face to face dialogue between the vineyard and the terroir without any man intervention.

### PRODUCTION TECHNIQUE:

skins maceration and consequent traditional fermentation. Ageing in iron tanks with small percentage in wooden casks.

### ORGANOLEPTIC SENSATION:

full and sweet as a well mature fruit. It expresses the harmony of smoothly running summer days, the scent of a spring rich of fresh red fruits and spices.
